太空银

Aluminum Effect
Pearlescent Pigments

● CLAREIUM SIGNATURE PRODUCTS

Alucoppearl is A FDA complied Silver Grey family. It is developed with Pritty's "in house" technology. These silvery grey colors are created without the use of any colored pigments. Yes, the grey pearls is made of Mica and Titanium Dioxide only.

This Multi-coating product offers impressive metallic effect and opacity. With a small dosage, it can create a shimmer of dazzling sparkle for eye shadows, eye liners and many more interesting designs.

太空银系列是贝丽得公司2018年隆重推出的符合FDA标准的银灰效果颜料。太空银为贝丽得专利产品，她摒弃了传统的碳黑着色工艺，未添加任何有机颜料却获得了高光泽，高金属感，高遮盖力的惊艳银灰色。
